**The 'paint' that we use is coloured corn starch powder that is safe for the environment, people and animals however it could stain clothing and shoes. ## **COLOUR BLAST COLOUR STATIONS AND PAINT**

- There are three Colour Blast stations throughout the 2.5k and six on the 5k course. The Colour Blast Regiment volunteers will spray you with different colours as you pass through the colour stations. Each station has a different colour
- Paint should only be thrown within the colour station or at the start/finish line within the paint release ceremony
- Please be kind to each other - have fun but be sure to aim low
- The paint is kind to the environment, people and animals but be warned that it probably may be uncomfortable if thrown above shoulder height. We recommend wearing sunglasses, goggles, vizors or safety glasses to protect your eyes
- If you suffer from respiratory issues, we also advise that you wear a bandana or facemask on your face
- Our paint is manufactured within the UK and widely used within primary schools throughout the country. Is made up of potato starch, safe for the environment, people and animals. The paint conforms to UK safety rulings EN71 and EU regulations 1907/2006
